Skills

JavaScript, NodeJS, C, Java ExpressJS, React, Git, SQL, Linux/ubuntu, MacOs

Interests

Web 3.0, Blockchain, Anglais

Language

French – Native

English – Advanced

As a computer geek, I learned to code from a young age in various computer languages and I have created personal projects. Versatile, I know how to work in a team or lead a project alone.

Education

Since September 2020 | Bachelor's degree in Computer science
University Evry Val d'Essonne | University Paris-Saclay

2020 | Baccalauréat S – Honors– Option ISN
François Couperin High School, Fontainebleau

Experiences

ViteClout - Gitcoin Hackaton, Platform where creators can generate Vite-based social tokens and fans can buy and sell those tokens.

- Back-end development: creation of an API that communicates with the database, that manages the sending of files, and that allows to connect with Twitter

- Front-end development: API call, page creation, route system, user experience development: error management, feedback via notifications.

- Teamwork with GIT and GITHUB: branch management, pull request, code review

Javascript, Typescript, NodeJS, React, Git, MySQL, HTML, CSS

Realization of a social network project based on Twitter, with a system of posts, likes, comments

- Creation of a live chat between peers

- Authentication system created in its entirety based on JWT: creation of access token, refresh token

- Unit testing with Cypress

Javascript, NodeJS, React, Git, MySQL, HTML, CSS, Websocket, JWT, Cypress
